Welcome! Come inside and explore a quality collection of competitively priced, easy-care vinyl windows and patio doors backed by Pella.
Encompass by Pella® double-hung and Special Shape windows with Traditional grilles-between-the-glass give a home a custom-built look without the custom price tag.

Encompass by Pella casement bow window with 9-Lite Prairie grilles-between-the-glass expands the view and living space.

Encompass by Pella double-hung windows and sliding patio doors give you less to dust – the grilles and blinds are sealed between the panes of insulating glass.
Competitively priced, easy-care vinyl.

Encompass by Pella® vinyl windows and sliding patio doors feature low-maintenance, high-grade vinyl frames that look great for years. And they can help you save money by lowering your energy costs. Best of all, you get the pride of owning quality products backed by Pella — and satisfaction for years to come.

Visit the Encompass by Pella windows and patio doors page for more ideas and inspiration at pella.com/encompass-by-pella.
Energy-efficient insulating double-pane glass. Encompass by Pella windows with Advanced Low-E insulating glass with argon help reduce the amount of energy used to heat or cool your home.

Added wind resistance. Reinforced, interlocking window sash and checkrails add wind resistance to help improve energy efficiency.

ENERGY STAR® performance. Encompass by Pella vinyl windows and patio doors offer the energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states.¹

Less to clean. Convenient blinds—or grilles-between-the-glass are protected from dust and damage, so they’ll never need cleaning.

Low-maintenance vinyl frames mean no more painting. Solid color throughout the vinyl material keeps minor dings and scratches virtually invisible.

Improved overall strength. Multichambered frame and fully welded sash reduce sound transmission and improve strength and thermal performance.
Years of smooth, easy operation.
Our balance system allows double-\(^3\) or single-hung windows to open and close easily. In fact, they go through rigorous factory testing to make sure your new products will operate as they should.

High-performing insulating glass construction. Pella removes the Low-E coating where the glass meets the sealant. This extra step helps reduce the possibility of the glass seal failing, which can cause fogging and reduced energy efficiency.

More peace of mind. Encompass by Pella\(^\circ\) windows and patio doors are backed by the Pella Limited Lifetime Warranty. It’s nonprorated, meaning the coverages within the defined warranty periods do not decrease over time. See written warranty for complete details at pella.com/warranty.

1 Some Pella\(^\circ\) products may not meet ENERGY STAR\(^\circ\) guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.
2 Available on patio doors only.
3 Available in East Region only.
Our most popular styles are as beautiful as they are functional.

Double- and Single-Hung Windows

The lower sash of a single-hung window can be raised to let the breeze in, and a double-hung window offers maximum ventilation — both upper and lower sashes open.

Years of smooth, easy operation. Our balance system helps ensure your window will open and close easily.

A tighter seal against the elements. Pella’s cam-action locks pull the sashes against the weatherstripping. Goodbye, drafts.

One less thing to worry about. AutoLock hardware automatically locks windows when shut. Simply close your window and confirm it latches. W

Easier cleaning. Opening sash tilts in — making it easy to clean the exterior glass from inside your home.

Casement and Awning Windows

Coveted for their clean, uncluttered views — they glide open and shut with the turn of one easy-to-operate handle.

Years of smooth openings and closings. Stainless-steel operating arms and hinges resist rust and corrosion.

Simple to operate. Unison Lock System secures the window in two places with one easy-to-reach handle.

More convenient handle design. Fold-away handle won’t get in the way of roomside window treatments.

A breeze to clean. Easy-clean wash feature makes it simple to clean the exterior glass from inside your home.
Fixed, Special Shape and Factory-Assembled Combinations

Fixed windows don’t open — their job is to maximize your light and view. Special Shape windows and combinations offer virtually endless design possibilities.

**Curves, angles and more.** Special Shape windows are a great way to add architectural interest and natural light to your home.

**A stunning focal point.** Factory-assembled window and patio door combinations allow you to create a custom look using standard windows.

**A quality, seamless look.** Grille options are available to match other Encompass by Pella® products.

---

**Sliding Windows**

Sashes slide open horizontally, so you don’t have to reach up or bend down to open and close them.

**Easy operation.** Tandem nylon rollers are extra-durable and help ensure smooth openings and closings.

**A tighter seal against the elements.** Pella’s cam-action locks pull the sashes against the weatherstripping. Goodbye, drafts.

**One less thing to worry about.** AutoLock hardware automatically locks windows when shut. Simply close your window and confirm it latches.

**Easy to clean.** Sliding sash can be removed to clean exterior glass from inside your home.
Because they don’t swing, they’re just right when floor space is limited.

**Convenience plus light and privacy control.** Optional blinds-between-the-glass stay protected from dust and damage so they’ll never need cleaning – plus, they won’t get in the way when you go in or out.

**Outstanding durability.** Galvanized steel reinforcement provides superior structural integrity and resistance to wind.

**Easy operation.** Stainless-steel track and adjustable dual rollers allow the panel to glide easily.

**Maximum light and view.** Matching sidelights and a transom turn your patio door into an impressive focal point.
PELLA HAS THE RIGHT GLASS FOR YOUR HOME
Increases your comfort. And helps reduce your heating and cooling costs.

Low-E Glass Collection

Energy performance. Pella’s InsulShield® Low-E Glass Collection offers our most innovative and energy-saving choices – and is designed to meet a variety of specific needs and climates.

- **Advanced Low-E Insulating Glass with Argon**
  - BEST USE: Most climates.
  - A popular choice because it insulates well from the cold and the heat.
  - Two panes of glass with Advanced Low-E protection and insulating argon between the panes. Blocks 84% of the sun’s ultraviolet rays.

- **SunDefense™ Low-E Insulating Glass with Argon**
  - BEST USE: Hot, sunny climates. Allows in visible light and provides a clear view, while helping to block the heat of the sun.
  - Two panes of glass with SunDefense Low-E protection and insulating argon between the panes. Blocks 94% of the sun’s ultraviolet rays.

**ADDITIONAL ENERGY-EFFICIENT GLASS OPTIONS FOR YOUR SPECIFIC NEEDS**

<table>
<thead>
<tr>
<th>Glare</th>
<th>Bronze-tinted Advanced Low-E insulating glass with argon is softly tinted to provide effective glare control without the discomfort of heat-absorbing glass or the visual disruption of highly reflective glass.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Moderate Weather</td>
<td>Clear insulating glass helps prevent heat or cold from escaping or entering your home. A good value for basic energy efficiency, it allows in maximum natural light and solar heating.</td>
</tr>
<tr>
<td>Privacy</td>
<td>Obscure insulating glass is ideal for intimate spaces such as the bathroom or bedroom. The textured surface lets the sun shine in while obscuring the view.</td>
</tr>
</tbody>
</table>

Encompass by Pella products offer the energy-efficient options that will meet or exceed ENERGY STAR guidelines in all 50 states.

---

1 Glass options can be upgraded to offer the benefits of our InsulShield Low-E Glass Collection. Glass options may vary per product. See specific product information for availability.
2 Optional high-altitude Low-E insulating glass does not contain argon in most products. Please see your local Pella sales representative for more information.
3 Some Pella products may not meet ENERGY STAR guidelines in Canada. For more information, contact your local Pella sales representative or go to energystar.gc.ca.

When we’re making our energy-efficient windows and doors – and even when we’re not – Pella helps protect our environment in communities across the country through forest stewardship, pollution prevention, waste management and other important green initiatives. Not only because it’s good for business. But because it’s the right thing to do. And, frankly, it’s just part of the way we’ve always done things at Pella. When you choose Pella® windows and doors, you’re making an environmentally responsible purchase you can feel good about.
